

About Us

Eco Concern Pvt. Ltd. is a social business specializing in innovative solutions for safe water, sustainable sanitation, and environmental health. It is a private limited company registered with the Government of Nepal in Asadh 2073 BS. The company believes in sustainable WASH (Water, Sanitation and Hygiene) as a key to sustaining human health, education and economic development and it is essential for the stability and development of communities and the world.

EcoConcern, as an ecopreneur, develops and sells environmentally friendly products and services for drinking water, wastewater and fecal sludge treatment. Our mission is to provide eco-friendly and affordable water and sanitation innovations benefiting communities in Nepal.

VISION

Healthy and prospering communities practicing sustainable WASH.

MISSION

To collaboratively promote the delivery of safe water, sustainable sanitation and alternative energy that produce high quality and lasting benefits to consumers and communities.

FOCUS AREAS

Safe Water: Access to safe water is a basic human right.

Sustainable Sanitation: Provision of lasting sanitation is a leading development priority.

Healthy Environment: Clean environment is central to increasing quality and longevity of life.
